EXPERIENCE

UI Design Consultant

Jan 2026 - Present

Lehigh University Computer Science Department • Bethlehem, PA

- Served as a UI design consultant for multiple capstone teams, collaborating with developers to define user problems and create interface prototypes for a range of web and mobile projects
- Conducted user research, developed Figma prototypes, and iterated designs based on user feedback

Museum Educator Intern

Jan 2025 - Present

Lehigh University Arts Gallery (LUAG) • Bethlehem, PA

- Designed custom illustrations and visual assets to communicate complex themes clearly and increase visitor engagement across physical and digital touchpoints
- Planned and delivered interactive, user-centered tours and experiences for groups of 30+ participants, translating abstract concepts into accessible, compelling narratives

Group Operations and Terminal Development Intern

June - Aug 2024

Hutchison Ports Holding • Tsing Yi, Hong Kong SAR

- Designed and ran simulation experiments to understand system behavior and constraints, translating findings into insights for enhancing energy efficiency in autonomous trucks
- Presented findings and actionable recommendations to supervisors to inform operational decisions

PROJECTS

Lingua

Jan - April 2026

Lehigh University • Bethlehem, PA

- Designed a language-learning app for children of immigrants, bridging Duolingo and Quizlet with context-based modules (flashcards, quizzes, games) and a user-generated system for underrepresented languages
- Led end-to-end UX process, created wireframes and prototypes, and conducted low- and high-fidelity user testing informed by surveys and interviews to validate real-world communication needs

Course Registration Interface, User Experience Research

Sep - Dec 2024

Singapore University of Technology and Design (SUTD) • Singapore

- Developed improved course enrollment interface addressing student pain points through course information accessibility, integrated sentiment analysis, and automatic schedule conflict resolution
- Conducted user studies and presented findings in a comprehensive report detailing the design rationale, implementation timeline, and user feedback insights

EDUCATION

Lehigh University • Bethlehem, PA

May 2026

B.S. Integrated Degree in Engineering, Arts, and Sciences

GPA 3.89/4.0

Concentrations in Computer Science and Graphic Design

B.A. Global Studies

SKILLS

Design Tools: Figma, Illustrator, Photoshop, InDesign
